EDUCATION

BTech CSE with Specialization in Artificial Intelligence and Machine Learning, Eden Institute of Technology (2023-2027)
CGPA 2.50/4

Class 12 (Eden Academy), Example Junior College, 2023: 93.4%

Class 10 (Eden Academy), Example Public School, 2021: 95.2%

SKILLS

Python, Java, SQL; scikit-learn, PyTorch, LangChain, RAG; FastAPI, React; PostgreSQL, MongoDB; Git, Docker

EXPERIENCE

Machine Learning Intern, Example Analytics Pvt Ltd (2025-05 to 2025-07)
Built a churn-prediction baseline and a dashboard of model metrics.

PROJECTS

Peanut Price Predictor - demand forecasting (Python, scikit-learn, FastAPI)
Forecast weekly snack demand from sales history with gradient boosting; served through a FastAPI endpoint.

Study Buddy - RAG over lecture notes (Python, LangChain, RAG, PostgreSQL)
Ask questions about course PDFs; LangChain retrieval with source citations.

PUBLICATIONS, ACHIEVEMENTS AND MEMBERSHIPS

- Forecasting Snack Demand with Gradient Boosting (under review at an example conference)
- Finalist, Example National Hackathon 2025
- Core member, college AI Club
- Student Member, Example Computing Society
- AI Club, Eden Institute of Technology
